

EXHIBITION
CHAMPAGNE SINGLE KNOW-HOW

by Michaël BOUDOT
for Lehmann Glass

made with passion in 2016

Michaël Boudot, a passionate photographer and wine lover, has been travelling across the Champagne region for over a decade, taking expansive shots of his native land which is so historically rooted in these vines.

Through the exhibition "CHAMPAGNE SINGLE KNOW HOW" you will see the Champagne region through a range of peacefully authentic landscapes and curiously simple portraits of winemakers in their daily routines – all of which are beautifully captured through various light sources and captivating juxtaposition.

The pieces presented, using the Subligraphy* technique, will reveal the many facets of the precious nectar and the different winemaking techniques of the region which makes Champagne so inimitable and world renowned in the sense of the beverage and location alike.

A natural coming together and partnership was born between Lehmann Glass and Michaël Boudot who both, in their own heartfelt way, pay homage to the ultimate King of wines. It is through this passion that The Oenology Collection **by Lehmann Glass** was imagined and finally created. The collection delicately accompanies the wine through its dance which is then perfectly punctuated by the images captured in the "CHAMPAGNE SINGLE KNOW HOW" exposition.
